Skills

Adaptable:

As my work with The Capitol Theatre came to an end, the Chairmen asked if I could help him with another project. He got me to work at the Greater Moncton Sewage Commission as a lab assistant as he was a Chairman there too. It was a change from the paper work I was doing, but he knew I would adapt and do well.

Leadership:

While attending New Brunswick Community College, I was a class representative and ran the Christmas parade float committee. I was required to delegate duties, make deadlines and make sure everyone involved was informed.

Communication:

Working at a portrait studio I was required to communicate with my clients to make appointments, take the photos and choose a package that would meet their needs.

Experience

Photographer/Cashier

July, 2008 - September, 2016

Loblaw Superstore, Moncton NB
